

Parents must be informed of the following. CSO will send it out but coaches need to do so as well.

1. If your player is sick in anyway DO NOT send them to practice or a match.  
\*We will not punish players if they stay home because they are sick.
2. The bathrooms, concession area, and other common areas will be cleaned and disinfected regularly.
3. All players must bring own water and snack (if they want one) for both games and practices.
4. Shared items such as training vests must be used by only one player per practice and washed between practices.
5. Until things change CSO will follow the governor's guidelines—no more than 20 at outdoor gatherings. Once matches begin 2 spectators per player.
6. We will encourage social distancing on the sideline.
7. Once open concession area workers will wear masks and change disposable gloves regularly.
8. We encourage coaches to have hand sanitizer available at each training session and match.
